Dear Fred

"PS4U was employed to assist with the sale and eventual purchase of a property for our elderly mother. She had unsuccessfully attempted to manage this process by herself which ultimately lead to stress which adversely affected her health. PS4U was recommended to us as a means of realising the goal of downsizing for Mum.

All dealings we had with Fred were conducted in a professional manner with an excellent understanding of the real estate industry. He was able to provide Mum with choices for her real estate agent to sell her home.

We would highly recommend PS4U to anyone who is contemplating buying or selling a home. The cost savings were more than we anticipated and resulted in less pressure during a highly stressful life event."

Regards  
Kathy
